## Meds to Beds

Delivering your discharge medications to  
your room before you leave the hospital

## About Meds to Beds

Meds to Beds is a bedside service that aims to enhance your discharge process. A pharmacy technician will deliver medications directly to you before you leave the hospital. There is no additional charge for this service. Designed with your health in mind, this program eliminates the need to stop at the pharmacy on your way home.

## Meds to Beds Benefits

- Family and caregivers can be involved in the process
- Added privacy
- Pharmacy will work with providers and insurance companies to take care of any issues, such as prior authorizations
- A pharmacist is available for counseling in person or over the phone
- Saves you a trip and long wait at the pharmacy after you are discharged

## Frequently Asked Questions

### Can my prescription costs be added to my hospital bill?

Prescriptions filled by the Meds to Beds program are considered an outpatient pharmacy service. We are able to collect your copay when services are rendered.

### Do you accept my insurance plan?

We accept a majority of prescription insurance plans and directly bill your insurance provider. You are responsible for any copays required when services are rendered.

### What types of payment do you accept for prescriptions?

The Meds to Beds program accepts personal checks, debit cards, credit cards, and cash.

### What if I forget to bring my prescription insurance card to the hospital?

We will gladly work with you and your insurance company to get any information that is needed.

### How will I be notified when my prescriptions are ready?

Once your prescription is filled, a pharmacy technician will deliver it to your bedside on the day of discharge and offer prescription counseling. They will also collect any required copayments.

### How do I request my discharge prescription(s) to be conveniently filled at the hospital?

Let your nurse or doctor know that you would like our outpatient pharmacy to fill your prescription(s). We will take care of the rest.

### Where is the pharmacy located?

The pharmacy is located in the main lobby of the hospital.
